MINDYOURMAIL™

Your Customers, Your Contacts, Your Mailing Lists - Your Terms.

Powerful E-Mail List Management Software

Professional Use:

Whether you work from your home or for your local church, or for a large corporation, Mind Your Mail™ can handle all of your e-mailing needs. Establish LIVE Active-Links between Mind Your Mail™ and your company's existing databases to auto-matically maintain up-to-date recipient information. Merge e-mails with recipient information to customize and personalize each e-mail sent. Store HTML and plain-text templates for repeat mailings, generate eye-catching, interactive HTML mailings and preview the mailing content before you send it. Implement AnswerChat™ Live-Chat links and let your mailing recipients contact you for live chat, and much much more.

Personal Use:

Keep in touch with friends and loved ones more easily than ever before. Mind Your Mail™'s integrated contact manager will help you keep track of all of your contacts and their contact information. Mind Your Mail™ can even import your MS Outlook contacts with just a few clicks. Store as many personalized signatures as you want. Mind Your Mail™'s appearance can also be customized to fit your personality. Change colors, button styles, and much much more.

Manage your own mailing lists!

Don't rely on another company to track and maintain your mailing lists. Mind Your Maill™ lets you manage your own contacts and mailings the way you want to, without losing your privacy or control of your contact database(s).

Import Recipients

Mind Your Mail™ comes complete with import wizards to facilitate recipient entries. Select to import from a delimited text file, or from your MS Outlook contact manager. Let the wizards step you through the import process and, in a few clicks, all of your recipients will be added to your Mind Your Mail™ Recipients Database.

Automatically comply with Anti-Spam Laws!

Keeping in compliance with the new Anti-Spam Laws has never been easier! Mind Your Mail™ makes it effortless for you to keep track of those who wish to be 'Removed' from your mailing list(s). Let Mind Your Mail™ automatically check for removal requests, remove those recipients, and even add a removal link to your e-Mails, automatically.

Backup/Restore Database Information

Mind Your Mail™ includes a utility which gives you the ability to backup your Recipients, Active-Links, Saved Mailings and Groups. This lets you be sure your Mind Your Mail™ databases are safe and secure.
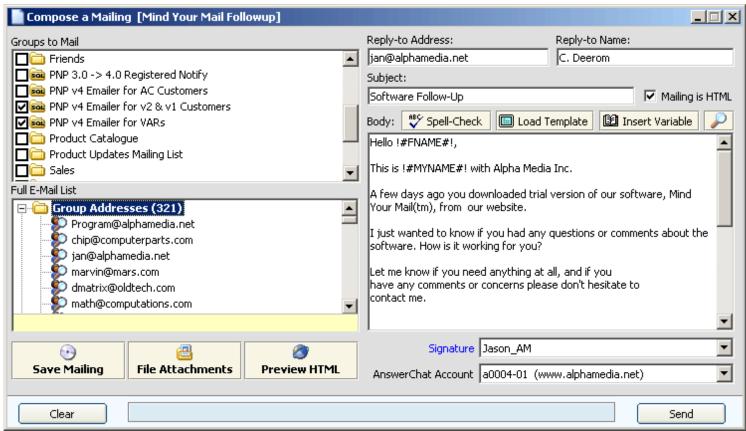

Mail-Merge Variables

Mind Your Mail™ enables you to insert mail-merge variables into your mailings. The variables will be replaced by the associated value corresponding to each recipient (ie.. !#EMail#! will be replaced by the e-mail address of each recipient as the e-mail is sent to them). There are also variables that apply to the sender of the mailing (ie.. !#MYNAME#! or !#MYEMAIL#!). All of the mail-merge variables are available from a drop down list in the Composition, and Template windows.

SQL Active-Links

For advanced users, an additional wizard comes integrated which will allow you to setup LIVE Active-Links between Mind Your Mail™ and your existing SQL Server. Do you have your existing mailing list information stored in an SQL database? Setup an Active-Link to that database, and (without importing) Mind Your Mail™ will retreive the current data from the SQL database, and use it for your mailings (including e-Mail addresses, Names, Addresses, etc..). Using SQL Query statements, you can set Mind Your Mail™ to include any records you want from within that database... and it will ALWAYS be current.

Mind Your Mail™ gives you the power to control your e-mails!

Information for Homer Simpson
